

Reflective Signs

When emergency responders are called to a given location, there may be a delay in response if crews are unable to see the address from the street. The few extra minutes it may take to locate your address could cost you your health or your life.

Reflective signs are fire resistant when mounted to a metal post and will last for years.

Contribution: \$30.00

With metal post \$40.00

Camino Fire Safe Council

Are you interested in knowing what your Fire Safe Council is doing for the benefit of your community? Are you interested in knowing more about defensible space and home hardening?

Join us for our monthly Fire Safe Council meeting, follow us on Facebook for meeting details and events.

Defensible Space

Defensible space is the buffer between your structure and the surrounding area.

Adequate defensible space acts as a barrier to slow or halt the process of fire that could possibility engulf your property. Defensible space is the first line of defense for your home against wildfire. It also helps ensure the safety of firefighters defending your home.
