Public Safety from Wildfires through Education, Preparation, Evacuation!

If we can't find you – We Can't Help You!

REFLECT TO PROTECT

When emergency responders are called to a given location, there may be a delay in response if crews are unable to see the address from the street. As everyone in this area knows, GPS locations are not always accurate. The few extra minutes it may take to locate your address could cost you your health — or your life!
