Greetings To All:

The next EDCFSC Stakeholders Meeting will be November 28, 2017, 1:00—2:30 pm. Please note location at the bottom of this page.

This year has seen a tremendous effort put forth by Stakeholders on several important countywide initiatives; Tree Mortality, SOFAR - Cohesive Strategy, Fire Adapted 50, Hazard Mitigation Projects all while working to also recover from winter storm damage.

After having suspended two meetings this year due to everyone’s workloads, this meeting will provide an opportunity to update accomplishments of this year as well as summarize planned work and possible partnerships needed in the coming year.

Special Note: Chris Dallas of the Sierra Nevada Conservancy (SNC) will provide a summary of the SNC’s current effort conducting a Strategic Assessment of the needs of the Sierra Nevada Region in order to address its many critical issues and the SNC’s role in supporting the Region.

We look forward to seeing everyone later this month.

_The Goal of Stakeholders is to share general and project information that may be pertinent to others and provide opportunities of synergy where by working together, more may be possible._
